

The purchase of the Contact Management package enables exhibitors to process incoming contacts on the platform and to contact the prospects directly by jumping onto their digital profile.

## How do I access the Contact Management Tool?

You need a valid Messe-Login and an exhibitor pass. After logging in, click on the three dots and "Exhibitor area" at the top right or use the option from the dashboard "Visit Exhibition area".

From the Exhibitor area, the "Lead Manager" button will take you to the Contact Management Tool and your so-called "Worklist".

e.g. name, company

Employees who have not been given admin rights by the main contact person can only see their own contacts and those assigned to them in the worklist. Main contact persons and deputies can see all contacts. By default, the "Not assigned" filter is set, so initially only the contacts that are not yet assigned to an editor are displayed. If you want to see all contacts, select "Reset all filters" at the beginning.
